Summary

M.S.–Ph.D. integrated course student in Artificial Intelligence at DGIST, conducting research under the supervision of Prof. Sunghoon Im at the Robotics and Vision Lab (RVLab). My research centers on **representation alignment**—aligning features and attention across text, images, and reference subjects—so that generative models remain **consistent and controllable**. This perspective spans style transfer and object-centric editing, consistent multi-image generation, and reward-based post-training (ReFL, GRPO) for subject-driven personalization, and is currently being extended to **video world models**, where long-horizon temporal consistency and controllability are the central challenges. This line of work has been recognized with an **ACM SIGGRAPH Asia 2026 Oral**, an **AAAI 2026 Oral**, and a **CVPR 2025 Highlight (Top 3.7%)**, as well as multiple international peer-reviewed papers.

Research Interests

- Representation Alignment for Generative Models
- Video World Models
- Image & Video Generation (Diffusion, Autoregressive)
- Style Transfer and Subject Personalization
- Vision–Language Understanding

Education

Feb 2023 – Present	M.S. - Ph.D. Integrated Course, Interdisciplinary Studies of Artificial Intelligence (ISAI), **DGIST**, Daegu, South Korea. *Advisor: Prof. Sunghoon Im*
Sep 2018 – Jul 2022	Bachelor of Mechanical Engineering, **Zhejiang University**, Hangzhou, China.
Mar 2015 – Feb 2018	High School Diploma, **Chungnam Samsung Academy**, South Korea.

Work Experience

Generative Model Research Intern, Baidu (Shenzhen, China) *Dec 2025 – Mar 2026*

- Conducted research on image/video generation using large-scale diffusion and flow-matching models under the supervision of *Dr. Yan Zhang*.
- Explored reinforcement learning-based post-training (GRPO/ReFL) for generative model alignment, with reward function design combining perceptual and semantic metrics.
- Outcome: first-author paper (*CRAFT*) accepted to **ACM SIGGRAPH Asia 2026**. [Invited Session on CAD/Graphics 2026, Seoul National University] [paper] [project page]
